8. CRITERIA FOR EVALUATION AND AWARD

The City evaluates three categories of information: responsiveness, responsibility, and price. All bids, regardless of the type of solicitation, must meet the following responsiveness and responsibility criteria:

- A. Responsiveness- The City will determine whether the bid complies with the instructions for submitting bids, including completeness of bid, which encompasses the inclusion of all required attachments and submissions. The City must reject any bids that are submitted late. Failure to meet other requirements may result in rejection.
- B. Responsibility- The City will determine whether the bidder is one with whom it can or should do business. Factors that the City may evaluate to determine “responsibility” include, but are not limited to: excessively high or low priced bid, past performance, references (including those found outside the bid), compliance with applicable laws- including tax laws, bidder’s record of performance and integrity, has the bidder been delinquent or unfaithful to any contract with the City, whether the bidder is qualified legally to contract with the City, financial stability and the perceived ability to perform completely as specified. A bidder must at all times have financial resources sufficient, in the opinion of the City, to ensure performance of the contract and must provide proof upon request. The City reserves the right to inspect bidder’s facilities, equipment, and personnel and those of any identified subcontractors. The City will determine whether any failure to supply information, or the quality of the information, will result in rejection.
- C. Price- The City will then evaluate bids that have met the requirements above.
